

Nearshore Development

A Reliable Partner Close to You

About DSS

Ever since its foundation, DSS Consulting has specialized in custom developments, business intelligence systems and analytical solutions. We are proud that our company has pioneered business analytics solutions, data quality assurance and data mining in Hungary. Based on this knowledge and experience, we have expanded our portfolio with industrial digitalization solutions, thanks to which we have been able to effectively help the digitalization efforts of our customers in the industrial sector for several years. Thanks to our experience of more than 20 years, as independent consultants, we have been focusing on choosing the best solution to each challenge that our customers deal with.

DSS and Nearshore Development

With more than a decade of experience in nearshore development projects, we offer the following advantages to our partners:

- No cultural differences: European work culture, pursuit of quality
- Well-trying project management methodology and tools
- Outstanding staff with international experience
- Low travel costs and unimpeded communication thanks to geographic proximity
- Fluency in English and German
- Favorable cost structure
